Shower Head Hatrick from the Axis Collection

Aqualisa's new Axis collection offers no less than three different shower heads. And with all designs integrating Aqualisa's unique 'clear-flow' technology that prevents nozzles from scaling, you can be sure that as well as looking good, your showerhead will always deliver a deluge rather than a drizzle.

Created with maximum design versatility in mind, the three shower heads – wall-fixed, ceiling-fixed and ceiling flush-fixed – are compatible with both Aqualisa's Axis Digital and Axis Thermo showers. So, whether you opt for sleek showering sophistication with an Axis Digital or a more conventional look with the Axis Thermo, a shower head to suit is guaranteed.

So, what are the guidelines for choosing the right shower head? Aqualisa offers the following tips -

- Think about what kind of showering space you have. If it's compact, a ceiling-fixed showerhead will be unobtrusive and maximise the area.
- Similarly, if your showering area has low ceilings, why not try a showerhead that can be fixed flush to the ceiling?
- Adjustable height showerheads are perfect for family bathrooms. Go for one that is easily adaptable with a simple movement that even the kids can use without struggling.
- Both ceiling-fixed and ceiling flush-fixed showerheads look stunning in wetrooms and really open up the showering area
- Finishes vary, but hard-wearing chrome is a real classic and is easy to keep clean from water marks
- If you live in a hard water area, check out showerheads with self-cleaning or anti-scaling nozzles
- Showerheads offering variable spray patterns are a great for getting the most from your shower. Some powerful showerheads do rely on good water pressure however, so get your installer to check before buying!
- Aqualisa's Axis showerheads start from £115.00, inclusive of VAT.
